## **Vino Via Wine Luggage Launches Two Wine Suitcases**

Los Angeles, CA, December 12, 2022. For immediate release.

Vino Via unveils its new line of luggage designed for the proud wine traveler.

The Vino Via wine luggage comes in two sizes: The Six and The Ten. Their names indicate the maximum number of bottles the suitcase can hold.

Each suitcase is made with a durable polycarbonate hard exterior with a wine barrel design. Both shells are layered with Vino Via's patented foam padding that safely and securely cradles the bottles and accessories such as a wine corkscrew. These shock-absorbing pads are removable to make room for clothes, shoes, toiletries, and other travel essentials. The mesh divider has multiple pockets for easy access to items such as documents, gadgets, and charging cables.

The exterior offers extra protection for bottles and belongings. Both The Six and The Ten by Vino Via are equipped with a built-in TSA combination lock, anti-theft double zippers, and two adjustable and buckled outer straps. Meanwhile, thanks to the reflexive quick-lock telescopic handle and silent 360° double spinner wheels, the Vino Via wine luggage glides to the destination with that familiar reliability of a high-quality spinner suitcase.

For more peace of mind, the Vino Via wine luggage is protected by ten years of manufacturer defect warranty.
